Fan

STB Digital TV

AC

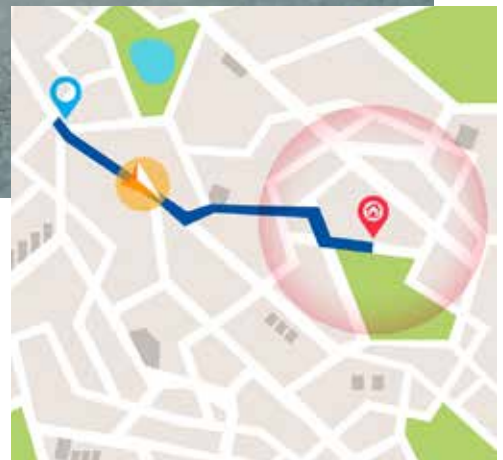

Projector

Controls within 8 meters radius

Control equipment from the IR transmitter.

Location-based Automation

* Apps must be active / running in background with GPS is ON

You can set your AFTO app to turn On or Off any device such as the Air-Conditioning or Water Heater when you are away or close to your home.

Let me know when you're nearby

With geo-fencing technology, you can ask AFTO to turn On or OFF your device automatically whenever you approach your home.
